

Davis Bews Design Group, Inc.

150 State Street East

Oldsmar, FL 34677

(813) 925-1300

Since 1994, Davis Bews Design Group has earned an honored reputation in the residential design and drafting industry, with an emphasis on our customer satisfaction and drawing excellence. Our passion is to be a heroic company with great people; to form partnerships and strive for our bigger future together.

We are personally committed to establishing a genuine partnership with our clients through exciting design, exceptional drawings, and service that exceeds expectations and contributes to their success.

Commercial CAD Technician

Note: All positions at Davis Bews Design Group begin as contractor positions

Overview of Position:

The Commercial CAD Technician will work within the production department, drafting full construction documents for commercial projects and assisting the production department with residential drafting projects as needed. The person in this position is required to take our in-house Love to Draw AutoCAD Residential training program. This is a full-time position working in our office in Oldsmar, Florida. For the right candidates, partially or fully remote positions will be considered on a case-by-case basis.

Detailed Job Responsibilities:

1. Qualified candidates will have proficiency using AutoDesk 2D AutoCAD.
2. Contractor will work on commercial drafting projects, working directly with project managers and clients, as needed.
3. Contractor will be required to take our Love to Draw residential drafting training program and successfully pass the qualifying tests.
4. Contractor will work as needed to satisfy client and company due dates.
5. Contractor will attend office, team, and project-based meetings as required.
6. Working hours are generally between 8:30 AM and 5:30 PM Monday - Friday (with a 1-hour break). Additional hours may be required to satisfy deadlines.
7. All projects must undergo thorough self-review to check for errors, omissions, and other plan flaws.

Education / Qualifications:

1. Minimum of 5 years of experience working in commercial drafting is required
2. Commercial construction knowledge and familiarity with Florida building codes is required
3. Two- or four-year degree in construction, architecture, or drafting is preferred
4. Programming in either Revit or AutoCAD would be nice to have

We **LOVE** Drawing Houses.
